EXECUTIVE SUMMARY

Sherwood Consultancy is a premier supplier of high-quality automotive components, dedicated to keeping vehicles moving safely and efficiently. Founded in 2020, we specialize in provisioning a comprehensive range of vehicle body parts, suspension spares, and engine components for a wide array of vehicle makes and models. We serve individual car owners, professional mechanics, commercial fleets, and wholesale retailers. By combining an extensive inventory with exceptional technical expertise, we ensure our clients get the right part, the first time. We offer consultancy on services on product knowledge, product pricing management and pricing consultancy.

Sherwood Consultancy is a premier, high-caliber supplier and engineering advisory partner in the automotive components industry. We specialize in the end-to-end sourcing, quality benchmark assessment, and distribution of critical vehicle body parts, high-durability suspension spares, and precision-engineered engine components for commercial fleets, wholesale networks, and industrial applications

Built upon an unwavering commitment to engineering integrity and supply chain agility, Sherwood Consultancy bridges the gap between top-tier global manufacturers and complex automotive operations. We operate not merely as a component vendor, but as tactical corporate technical advisors, ensuring that every asset in your fleet or inventory portfolio achieves maximum uptime, optimal road safety, and superior mechanical efficiency.
